Roni Jack Vituli

Software Engineer Student
Full Stack Developer

Profile

Hi, My name is **Roni Jack Vituli** I'm a Software Engineering Student at Sami Shamoon College of Engineering.

I'm a highly motivated person, and I have an affinity for the software world. Also, I ran a **YouTube Channel**, where I share the knowledge I gained during my degree studies.

I have a desire to enrich and deepen my knowledge in the software world and discover new things.

Employment History

- **Teaching assistant at SCE, Beersheba** August 2022 - Present

In this job, I help the teaching staff review the homework/projects the students do during the semester, in addition, I give them feedback and a grade on their homework/projects

Education

- **Bachelor of Science: Software Engineering, Sami Shamoon College of Engineering, Beersheba** October 2020 - August 2023

4th year Student at SCE - Sami Shamoon College of Engineering, Beer-Sheva

GPA: 88

Projects

- **Guess-The-Word** August 2022 - Present

Guess The Word is based on the game "Wordle" the most popular game today. The technologies I used to develop the game are:

HTML, CSS, React, TypeScript. I also deployed the project, you can find the project on GitHub.

- **Easy-Study** March 2022 - June 2022

This website simulates a type of drive so that students can find study materials that can help them in their studies. In this project we learned to work in the **CI/CD method**, written with the help of **Jenkins** also, we used **Jira** to divide our tasks among the team members.

The technologies I used in this project are: **Django**.

you can find the project on GitHub.
