Roni Jack Vituli

Software Engineer Student Full Stack Developer

8 Profile

Hi, My name is **Roni Jack Vituli** and I'm a Software Engineering Student at Sami Shamoon College of Engineering.

I'm a highly motivated person, and I have an affinity for the software world. Also, I ran a YouTube Channel, where I share the knowledge I gained during my degree studies.

I have a desire to enrich and deepen my knowledge in the software world and discover new things.

Employment History

• Teaching assistant at SCE, Beersheba August 2022 - Present

In this job, I help the teaching staff review the homework/projects the students do during the semester, in addition, I give them feedback and a grade on their homework/projects

Education

• Bachelor of Science: Software Engineering, Sami Shamoon College of Engineering, Beersheba October 2020 - August 2023

4th year Student at SCE - Sami Shamoon College of Engineering, Beer-Sheva

GPA: 88

Projects

• Guess-The-Word August 2022 - Present

Guess The Word is based on the game "Wordle" the most popular game today. The technologies I used to develop the game are:

React, TypeScript, VScode. I also deployed the project, you can find the project on GitHub.

• Easy-Study March 2022 - June 2022

This website simulates a type of drive so that students can find study materials that can help them in their studies. In this project we learned how to work with the following technologies: Jira, Jenkins, GitHub, Django Framework, and CI/CD. you can find the project on GitHub.
